

LOGTAINER

PRESENTATION

RAIL, ROAD, AND
INTERMODAL SERVICES

2023

“

Logtainer means high quality transport: easy, efficient and sustainable.

”

ABOUT US

The company was established early in 1997 and has been growing ever since, becoming one of the most active private operators on Italian railways. In 2022, Logtainer's turnover was about 99 million (EUR).

→ WHAT WE DO

Logtainer's business is container transport in Italy by truck, by rail and by intermodal service. Logtainer offers high quality transport, customer friendly service and sustainable mindset.

Logtainer customers are shipping lines and Logtainer mission is to provide them the most efficient and favourable links to and from the main Italian cities/ ports.

To achieve this objective Logtainer is located strategically in the ports, with an Head Office in **Genova** and branch office in **La Spezia**.

Logtainer branch offices are also located in the inland terminals of **Pioltello** (Milano area), **Rubiera** (Emilia area), **Padova** and **Pordenone**. These locations are fundamental in the organization of intermodal service.

→ HOW WE DO IT

The services offered by **Logtainer** are supported by modern computer systems. We believe that offering the proper interface to customers systems requirements is a very important aspect in our business.

OUR SERVICES

→ RAIL SERVICE

Logtainer operates by rail both in Italy and internationally.

With a network of 6000 trains per year, we offer our customers a unique network, in terms of range of ports served and frequency of service.

To guarantee this service we rely on a fleet of 340 railway wagons rented for our exclusive use.

In 2022 Logtainer performed more than 6.000 trains saving 25.000 tons of CO₂ (-77% compared with road transport - Ecotransit calculation system)

→ INLAND TERMINAL SERVICE

Logtainer also offers terminal services in:

- M.G.M. located at Limito di Pioltello (Milano area)
- Terminal Rubiera (located in tiles area)
- Padova Interporto
- Pordenone
- Piacenza
- Busto Arsizio

Logtainer is the owner of Terminal Rubiera and has been investing to improve the operative performance of the terminal. All these terminals are able to meet lines needs of maintenance and repair service.

→ ROAD SERVICE

A modern fleet of about 600 trucks is available to meet our customers' needs throughout Italy.

We assist our clients with the transportation of dangerous cargo, temperature controlled cargo, secure transportation for high value goods and transport of waste.

Our vehicles are equipped with tracking systems and latest generation technologies.

OUR RAIL NETWORK
